

Meet Deswik

Deswik is a global consulting and technology company that delivers outstanding products and customer service to the mining industry.

The Challenge

We wanted a time saving alternative. Rather than finding various catering options, we wanted a consolidated service for supply and accounts invoicing.

The Solution

Order-In provides us with a huge number of suppliers and options, all with reviews.

What we liked most about Order-In

- ✓ Easy online ordering
- ✓ Saves valuable time
- ✓ Consolidated invoice

The Order-In Difference

With the ability to see current orders and to reorder from previous ones, there is an ease of ordering altogether.

The Benefits

Order-In is a one stop catering shop. There is no need to keep ringing around for availability, quotes or reviews. Everything is right in front of you.

“Order-In is a reliable service that saves time, with a great range of caterers for a variety of catering needs. We always get consistently great service from the staff at Order-In.”

Katherine, Office Administrator
