

Who are we?

Spaceframe is a proud family enterprise and a pioneer of the design and construct model in Australia. We've been building award-winning structures since 1972.

The Challenge

With limited caterers in our area, varied catering for our weekly lunch meetings became very difficult.

The Solution

Order-In provided us with a selection of caterers that could deliver right to our office. The variety of foods we can choose from is amazing and our managers no longer get bored with their weekly lunch meeting menus.

What we liked most about Order-In

- ✓ Variety
- ✓ Easy online ordering
- ✓ Helpful customer service

The Order-In Difference

Everything is done online and made very simple, so I no longer have to stress over lunch meeting options. The staff at Order-In are always helpful and only a phone call away if I need to discuss anything.

The Benefits

Order-In makes my job easier. I can place my order and forget about it. It always turns up on time and we have always been happy with the outcome. We have many functions throughout the year, where we cater for up to 100 people, and Order-In have not disappointed.

“They are well worth trying. They have made my life much easier and I am happy to recommend Order-In to anyone else struggling to find a business that can help them with catering.”

Gail, Receptionist
