

Who are we?

Thoughtworks is a community of passionate individuals whose purpose is to revolutionize software design, creation and delivery, while advocating for positive social change.

The Challenge

Ordering weekly lunches for 80+ people every week can start to get a little tricky when you're trying to find a new supplier every week and tell them our needs, special diets and budget. I needed a time saving solution and the ability to order food quickly, so I can move on to my other tasks.

The Solution

Order-In offers great customer care, an always growing list of suppliers and a fast, corporate catering solution.

What we liked most about Order-In

- ✓ Quick and easy ordering
- ✓ Excellent customer care team
- ✓ High quality food and service
- ✓ Saves time

The Order-In Difference

It has cut down ordering and sourcing time by so much. I no longer need to call several restaurants to see if they can cater for our needs, and then hope they deliver what I have asked for. I know with Order-In on my side that the food, service and quality will always be to my standards.

The Benefits

They save me time and I enjoy peace of mind that I will get exactly what I ordered.

“They are like a food delivery service, but for mass scale, with higher quality products and better presentation.”

Madeline, Office Manager
