

Who are we?

Zoom is a leader in modern enterprise video communications, with an easy and reliable cloud platform for video and audio conferencing, online meetings, chat and webinars.

The Challenge

The number of staff went from 30 to 130 in just a matter of months. I needed a way to run the office amenities that would keep up with demand, maintain a high standard and offer me an easy way to track my orders and budget. I wanted to partner with a company that would take the work off my plate and just make it happen.

The Solution

Order-In is a one-stop solution to all our catering, kitchen supplies and the endless ad-hoc requests I face on a daily basis. The team work so closely with me, they understand not only the pressure I am under to deliver, but my business as a whole. That kind of relationship is golden.

What we liked most about Order-In

- ✓ Easily track orders and budget
- ✓ One stop catering shop
- ✓ Takes work off my plate
- ✓ Saves valuable time

The Order-In Difference

I don't have to worry about anything. I no longer spend sleepless nights worrying about the details of a client event we are hosting, the number of bananas in the fruit box, or if someone springs a last-minute lunch meeting on me! All these things (and so much more), can be managed by the team at Order-In. This makes me so much more effective in my role.

The Benefits

Peace of mind. I know the team at Order-In take my business seriously. A job well done reflects as strongly on Order-In as it does on me, and I feel their commitment in every interaction. I think it is a testament to the Order-In team that I have used them at every role I have held, no matter the size of the business or the industry, Order-In have moved with me.

“You need Order-In in your life! It works,
and it works well.

It's an effective office management tool that gives you high levels of service, clear billing and easy options to manoeuvre all your needs.”

Emily, Office Manager
